

Establishment of an enterprise for sapropel extraction and processing

PROJECT DESCRIPTION

Establishment of an enterprise for extraction and processing sapropel from Lake Dikoye, based on OAO Petrikov Agroservice, and the release of sapropel-based fertilizers, drilling fluids, and therapeutic muds.

INFRASTRUCTURE

The distance to the M10 republican class motor road (Russian border-Gomel-Kobrin) is 10 km; the distance to the railway is 21 km. Electrical power supply can be connected from overhead transformer substation No. 763 (10 kVA) – spans 6/1-6/9. Gas supply is provided by a low-pressure gas pipeline (the diameter – 90 mm), which is 10.2 km away from the facility.

LOCATION AREA

urban locality of Mulyarovka, Dikoye Lake, Petrikov district

INVESTMENT AMOUNT

USD 6.1 million

PRODUCTION

sapropel fertilizers, therapeutic muds

PROPOSAL FOR COOPERATION:

1. Establishment of a joint enterprise
3. Other forms of cooperation
