

Construction of a new enterprise for mineral and drinking water filling

PROJECT DESCRIPTION

Construction of an Enterprise and organization of mineral and drinking water filling. The water will be sourced from the wells which are on the territory of children's rehabilitation and health center Ptich (Petrikov district, Gomel region).

INFRASTRUCTURE

The distance to the republican class motor road M10 (Russian border-Gomel-Kobrin) is 10 km; the distance to the railway is 21 km. Electrical power supply can be connected from transformer substation No. 313 (250 kVA), which is only 50 m away and linked to overhead power line No. 10 kV No. 761. Gas supply is provided by a low-pressure gas pipeline, which is 2.5 km away from the facility.

LOCATION AREA

urban locality of Kopatkevichi, Petrikov district

INVESTMENT AMOUNT

USD 0.8 million

PRODUCTION

mineral water, drinking water
