

Construction of an Animal Waste Processing Plant

PROJECT DESCRIPTION

Construction of a plant for the processing of animal waste and the production of meat-and-bone meal as well as technical fats.

INFRASTRUCTURE

Investment Site No. 3 located north of Yelsk with a total area of 25 hectares is offered for the project. The terrain is relatively flat with an elevation variation of 0.5–1.0 m. To connect a power capacity of up to 10 MW from the Mozyr CHP Plant, construction of a 110 kV overhead power transmission line (18.5 km) to the 110 kV “Yelsk” substation is required. The distance to the Category 2 high-pressure gas pipeline DU-219 is 930 m, and to the water supply pipeline — 1.5 km.

LOCATION

Block 75 of the Mozyr Experimental Forestry Enterprise

INVESTMENT VOLUME

31 million USD

PRODUCTS

Meat-and-bone meal, technical fats

COOPERATION PROPOSAL

1. Establishment of a new enterprise (production facility)
2. Other forms of cooperation

CONTACTS

Yelsk District Executive Committee
